

# EASY KIT

## PIPE RAIL TROLLEY

The Benomic Easy Kit is a simple electric pipe rail trolley with a mechanical platform. This trolley is designed to perform daily crop work. The mechanical platform can be adjusted in height manually and, therefore, you can work at any required height. The trolley needs very little maintenance because the trolley has a mechanical platform.

### Benefits:

- Excellent price/quality ratio
- Saves on labour costs
- Simple control and user-friendly
- Can be completely disassembled for export/transport

### Technical specifications\*

#### Properties

Platform height	mechanically adjustable
Platform height	min-max: 20-280 cm
Chassis dimensions (L x W)	174 x 65 cm
