

# TOMATO HARVESTER

The vine tomato harvester is designed for efficient harvesting and packing of tomatoes in boxes or cartons. The harvest cart comes with a roller conveyor for easy transfer of the full boxes onto the cart and an upper basket rack for easy access to empty baskets. The carts can also be connected to each other for easy transport to the processing area.

#### Benefits:

- Excellent price/quality ratio
- Saves on labour costs
- Simple control and user-friendly

#### Technical specifications\*

##### Properties

Available in various lengths	168 / 187 / 242 cm
