

200 LITER PUMP SET WITH TRANSPORT CART

The 200 Liter pump set with transport cart is designed for local crop protection or for use in small greenhouses. The cart comes with a 200 Liter reservoir, 14-nozzle spray boom and two 12-volt traction batteries. The integrated design avoids the inconvenience of hoses or pump set cluttering up the concrete pathway.

Benefits:

- Excellent price/quality ratio
- Saves on labour costs
- Simple control and user-friendly
- No pump/hoses or spray line in the greenhouse
- No unnecessary loss of resources
