

STEFIX 350

FLOOR SCRUBBER

The Stefix 350 is the smallest floor scrubber of its kind. This machine has a 350 mm brush and a 500 mm wide suction nozzle. This makes this machine extremely suitable for cleaning small canteens or restrooms. The machine has been constructed of impact-resistant plastic and is easy to dismantle for carrying out maintenance. As the machine runs on 230 Volts, you can continue working indefinitely without charging or exchanging batteries. The adjustable control panel can be easily adjusted in height for proper ease of operation.

Advantages

- Immediately clean and dry
- Saves on labor costs
- Worn parts can be easily and quickly replaced
- Clean water tank is easy to fill
- Dirty water tank can be easily drained
- Controls are simple and user-friendly
- No maintenance required to the battery and charger
- Continue working indefinitely because you need not charge or exchange batteries
- Machine is propelled by the brush's rotation
