

SPIJKSTAAL 310

ELECTRIC TRACTOR

The 310 3-wheel tow tractor is simply unique. The 310 is equipped with a powerful 48 V - 10 kW AC motor and is suitable for towing loads of up to 10 tons. This tow tractor performs incredibly on ramps. Descending ramps and slopes will be perfectly under control because of the high braking capacity of the 3 disc brakes with hydraulic 4 piston brake calipers. The tow tractor has good stability because of the low centre of gravity. The excellent sitting position and the very good suspension with long A-arms make the tow tractor extremely suitable for indoor use. The maximum speed can be programmed electronically from 8 to 18 km/hour. This tow tractor can, naturally, be equipped with the Spijkstaal cabin with two sliding doors within the chassis. It is equipped with the Spijkstaal horizontal battery exchange system as standard.

Benefits:

- Excellent price/quality ratio
- Saves on labour costs
- Simple control and user-friendly
- Low footboard

Technische specificaties *

Properties

| | |
|--|-----------|
| Towing capacity | 10,000 kg |
| Step height | 32.5 cm |
| Traction battery | 48 V |
