

STEFIX 135 FLOOR SWEEPER

Specifications

The Stefix 135 gives you a perfect sit-on sweeping and suction machine which is suitable for sweeping soft and uneven substrates such as cultivation floors or outside areas. The machine has been specially designed for growers who cultivate on ground cover or film. It has wide wheels at front and rear as well as adapted tracking so that no ruts are left in the substrate, ensuring that everything is left nice and smooth. This machine is also extremely suited for sweeping up fine dust particles. The large filter surface area together with the large suction capacity mean that any job can be tackled. The simple controls and the large removable dirt tray on wheels ensure that emptying the dirt tray is lightweight and easy.

Advantages

- No tire tracks
- Dust-free sweeping
- Large dirt tray
- Small turning circle
- Also sweeps the corners clean
- Optional with hydraulic high dump system
